**1. PURPOSE**

This Order is issued to repeal the Arizona Department of Agriculture Director's Administrative Order 99-02 dated September 14, 1999, which restricted apple orchards in Cochise and Graham Counties to monitor for and treat for possible infestations of Codling Moth (*Cydia pomonella*). The order also called for removal of ground-fall apples and destruction of prunings.

It has been determined that the monitoring and management of Codling moth in Graham or Cochise Counties is no longer a feasible program for the Department, and is redundant to the area-wide management program facilitated by the growers in those areas.

**2. AUTHORITY**

A. R. S. § 3-201.01     Associate director; powers and duties

**3. APPLICABILITY**

This Order applies to all employees in the Plant Services Division of the Department.

**4. RESPONSIBILITY**

This order is effective upon signing.
